

qDock - RA0005

qIDmini Docking Station

Overview

The **qDock** (RA0005) is a charging docking station for the R1170I – qIDmini reader that can host up to three (3) readers and charge them simultaneously.

The **qDock** is recommended as a charging station when more than one reader is used in the same premise to reduce the number of micro USB charging cables around. Its ergonomic form factor is designed to make the plug/unplug operation easy and safe.

The docking station is provided together with its external power supply to be connected to a power socket.

A USB device port permits to connect the docking station to a PC to upgrade the firmware of the readers when needed.

The docking station can be also wall mounted using the provided hooks.

Features

- *USB 2.0 Full Speed*
- *Up to 3 readers charged simultaneously*
- *Allow firmware upgrade of the readers*
- *Allow data download from the readers*

Technical Specification Table
