REACH is the acronym for Registration, Evaluation, Authorization of Chemicals, the new European Regulation that has been in place since 1st June, 2007.

Its main objective is the regulation of the correct use of chemical substances.

REACH takes care of the registration of new substances and of substances already on the market for the European Community.

CAEN RFID srl, as a producer of electronic devices, informs you that the supplied products are registered under the category 'articles', as defined in the REACH regulation (Art.3).

CAEN RFID srl is a "downstream user" according to article 3 of the REACH legislation and therefore not obliged to register its products/systems according to article 7.

Our suppliers have been asked for the pre-registration of the listed substances/preparations for CAEN RFID. They have confirmed pre-registration or the intention to register their products as to guarantee REACH-compliance. If a supplier has not yet confirmed pre-registration, CAEN RFID srl will observe that this supplier fulfills its obligations under the REACH Regulation.

Products manufactured by CAEN RFID srl do not discharge, under normal reasonable use, any dangerous substances for human health nor the environment.

None of our products contain level of awareness for the SVHC substances or for substances published in the candidate list by the European Chemicals Agency (ECHA).

Therefore, for what has been mentioned above we declare that products produced by us perfectly meet the requirements set out by Regulation (CE) No. 1907/2006, called REACH.

Date: 25/01/2021

A handwritten signature in blue ink over a printed stamp. The stamp contains the following text: CAEN RFID srl, Via Vetraia, 11, 55049 VIAREGGIO ITALY, VAT IT 02032050466.

CAEN RFID srl
